INKJET MARKING BY MP

# Fast, colourful and robust labelling

## TECHNICAL DATA

<b>Power unit</b>	100–240 V AC universal
<b>Print area</b>	Approx. A3, 6 aluminium base plates
<b>Print speed</b>	From 90 seconds for 6 base plates
<b>Interface</b>	USB / LAN / WLAN
<b>Colours</b>	7 colour cartridges 7 cleaning cartridges 1 gloss (empty)
<b>Print volume</b>	Approx. 600,000 characters per cartridge (at font size 24 in the ACS software)
<b>Print resolution</b>	720 dpi
<b>Nozzles per colour</b>	180
<b>Min drop size</b>	1 pl (picolitre)
<b>Ink</b>	Special ink
<b>Dimensions</b>	Approx. 64 x 25 x 73 cm (W x H x D)
<b>Weight</b>	Approx. 20 kg

Large range of labelling materials:

Convenient operation

## Wide range of materials

6 labelling mats, quickly,  
colourfully and  
permanently labelled.

# Larger print area

## THE INKJET LABEL PRINTER WITH A LARGER PRINT AREA

With a larger print area, a huge capacity of up to 600,000 characters per cartridge and an integrated WLAN and Ethernet interface, the new **pictor<sup>2</sup>** inkjet label printer by Murrplastik sets the standard for colour-based inkjet printing systems.

The labelling specialist Murrplastik Systemtechnik, Oppenweiler presents the high-end inkjet printer **pictor<sup>2</sup>**. Razor-sharp and photorealistic quality with 720 dpi and fast printing are features that the **pictor<sup>2</sup>** inherits from its predecessor.

Murrplastik's engineers have developed a new ink specifically for the **pictor<sup>2</sup>**. The robust typeface is ideal for use in tough industrial environments.

**An important additional benefit** is the greatly improved range of the ink, with an increase in capacity of up to 50%.

Six polycarbonate labelling mats are fixed on the base plate and labelled simultaneously within 90 seconds.

**Different sign types** can also be "mixed" on a single base plate. That means that your company can manufacture its entire daily requirement of labelling plates in just a few minutes with virtually no effort. The ACS labelling software can be used to read in design data through CAD interfaces.

With its attractive design and a weight of just 20 kg, the **pictor<sup>2</sup>** is the ideal desktop printer.

## BENEFITS

- Photorealistic quality
- High print speed
- Robust typeface
- Easy to use
- Works with standard ACS software
